

POLYANE® Protection

Thanks to a wide range of protective sheeting, POLYANE® provides a solution for every step of the construction: painting, rendering, carpentry, industrial cleaning, etc.

With our protective films, professionals can avoid splashes, intensive cleaning, and degradation of the work of previous craftsperson.

The ideal sheeting for construction sites!

Made from polyethylene, our transparent POLYANE® plastic films offer different thicknesses to meet the user's needs. Easy cutting and easy laying: the film adapts to every type of environment.

More than ever, POLYANE® is the reference for protective sheeting.

Different widths, qualities and surfaces are available.
